

On October 3, 2019, the City of Sheridan Celebrated Arbor Day and their 11th year as a Tree City USA City. Tree City USA is a community improvement project. This project is sponsored by the Arbor Day Foundation in collaboration with the National Association of State Foresters, USDA Forest Service, U.S. Conference of Mayors and National League of Cities. This year, Sheridan received it's first growth award. This award was in large part due to the work our new City Arborist has done over the year. Updates to the City's Tree Ordinance, creating a Tree Board, and making improvements and additions to our City Arboretum are some examples of the work Clark Van Hoosier has done this year. Below is a photo of Clark receiving the Growth Award from Kelly Norris, District Forester for the Wyoming State Forestry Division.
